SAMPLE COVER

A modernist take on Mediterranean aesthetics, this new movement in interior design embraces sumptuous minimalism through warm, earthy tones, and natural materials.

A welcoming, new, down-to-earth minimalism is gaining momentum in home interiors, from California to Morocco, Portugal to Mexico. This trend combines folkloric influences with a rustic aesthetic, taking cues from arid landscapes to embrace warmth, light, and organic elements. Striking, sun-kissed interiors are replete with greenery to bring the outdoors in, and whitewashed walls are complemented by warm, earthy tones. Detailing like terracotta tiles, rattan furniture, and colorful handwoven textiles are offset by concrete, brick, and glass.

The New Mediterranean showcases inspiring residences and apartments that are infused with this relaxed, Mediterranean aesthetic. The book introduces the designers, architects, and brands who are bringing the style to life, outlining key elements in order to show how to create this look at home. More than a design trend, this is a philosophy to transform interiors into havens of light, craftsmanship, and simplicity.
