It is often said that beauty lies in the eye of the beholder. In *The Touch*, Kinfolk and Norm Architects present an alternative: that good design is not only visually appealing—it engages all of the human senses.

What do a museum in Marrakech, a mid-century apartment in Berlin, and a graveyard north of Venice all have in common? In *The Touch*, creative collaborators Nathan Williams of Kinfolk and Jonas Bjerre-Poulsen of Norm Architects explore the idea that these inspiring spaces, and many more like them, share the five essential tenets of haptic, human-centric design: materiality, light, color, nature, and community. Revealing some of the world's most sensual architecture and interiors, *The Touch* offers a wealth of inspiration through stunning photography, philosophical essays, and practical tips from the minds of design industry leaders.

NATHAN WILLIAMS is the co-founder of Kinfolk magazine—a leading design authority sold in over 100 countries.

JONAS BJERRE-POULSEN is an architect and founding partner at Norm Architects. He has over a decade of experience as an architect, designer, art director, and photographer.
