SAMPLE COVER

Cutting-edge design and unique spaces created for indulging coffee around the world that make your heart go faster.

Over the past few years, the world of coffee has kickstarted a movement of cultural and creative influence. From unique jute bags, logos, or merchandise—cafes, roasters, and coffee shops around the globe are experimenting with new ways to provide spaces and product packaging that stand out from the crowd.

*Designing Coffee* explores what it takes to curate some of the most innovative and eclectic coffee shops of today, from brand identity and packaging, through to interior design and architecture. Celebrating unique spaces, such as the minimalist, tea-house-like coffeeshops of Japan or communist-themed cafes in Vietnam, this book provides advice on how to create a unique space of your own.

#### WHAT TO EXPECT

- An essential book for coffee aficionados and curious baristas
- A visually led look at some of the most interesting coffee shops around the world
- A curation of the best coffee packaging today, focusing on artwork, illustration, and design elements
